

Instructional Framework

Vision for Learning

All students are empowered to learn, think and develop skills for lifelong learning. Teachers establish excellence in teaching and learning based on our **Practice Principles** and **High Impact Strategies**.

Practice Principles

Establish High Expectations for all Students	Engagement for Learning	Building & Assessing Knowledge	Feedback & Reflection
<ul style="list-style-type: none">• Create an entry routine where students are greeted and welcomed• Introduce learning expectations• Students are organised and ready to learn	<ul style="list-style-type: none">• Introduce learning intention and success criteria• Link prior knowledge, differentiate activities and strategies• Make connections to real world	<ul style="list-style-type: none">• Use student data to inform teaching• Model expectations through explicit instruction• A range of assessments will track student growth	<ul style="list-style-type: none">• Students link learning to success criteria• Teachers provide ongoing feedback opportunities• Students self and peer assess• Teachers collaborate with students for future learning

Model for Explicit Instruction
